

Anshul Raj Singh

Indian Statistical Institute, Bangalore Center

✉ bmat2405@isibang.ac.in 🔗 anshulrajsingh001

Education

Bachelor of Mathematics (Hons.)

January 2025 - Present

Indian Statistical Institute, Bangalore Center. Completed three semesters with cumulative aggregate: 90.34%.

Expected graduation: June 2027.

Senior Secondary Education (CBSE)

2024

Mount Litera Zee School, Unnao

Aggregate: 88.2%

Secondary Education (CBSE)

2022

Mount Litera Zee School, Saharanpur

Aggregate: 89.34%

Academic Experience

Reading Project in Representation Theory of Finite Groups

December 2025

Completed a reading project under the supervision of Prof. Manish Kumar at Indian Statistical Institute, Bangalore. Topics studied include linear representations, character theory, induced representations, and fundamental theorems in representation theory.

Research Experience

On a square packing conjecture of Erdős, (arXiv:2601.22163)

January 2026

Investigates a problem posed by P. Erdős concerning the maximization of the total side length of non-overlapping squares packed inside a unit square, and establishes some new results.

Mathematical Interests & Technical Skills

Mathematical Interests: Algebraic and Analytic Number Theory, Combinatorial Geometry, Real Analysis and Fourier Analysis.

Programming: Python (Matplotlib, Pygame), R.

Tools: Jupyter Notebook, L^AT_EX.

Personal Interests

Mathematics: Euclidean geometry, Exploring and solving self-devised problems in mathematics.

Programming: Experimenting with logical and algorithmic puzzles in Python (Pygame).

Others: Drumming, Piano and Swimming.

Honors and Awards

Qualified **Regional Mathematical Olympiad (RMO)**, 2023.
